

Do you draw other styles too, and if so, could you show us some examples?

What kind of drawings do you like to draw the most? Like dark, fantasy, animals, etc?

I DO! I HAVE A MORE "REALISTIC"
STYLE, A MORE CARTOONY ONE
AND A G. STYLE!

I MOSTLY USE THE CARTOONY STYLE
AND I LIKE TO DRAW DARK / SCARY
THINGS AND EVERY DAY LIFE SCENES!

A cartoon illustration of two green, three-fingered aliens floating in space. The alien on the left is speaking, with a speech bubble containing the text. The alien on the right is holding a small, colorful object. The background is a dark blue space with stars and a curved horizon line.
